

MALIALIM® series

MALIALIM® SC series

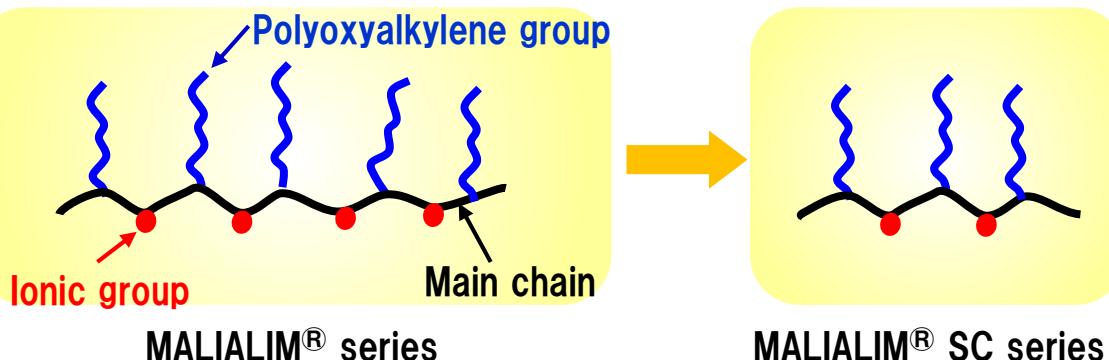

1 MALIALIM® and MALIALIM® SC series

MALIALIM® series are new functional polymers that have polyoxyalkylene groups on side chain and ionic groups on main chain, which can be used as dispersant both for inorganic and organic powders.

Polyoxyalkylene group : It gives steric-repulsion effects or acts as segments improving dissolution.

Ionic group : It acts as segments that adsorb on to the surface of powder.

MALIALIM® SC series has main chain length shorter than MALIALIM® series. According to the main chain length is short, MALIALIM® SC series shows good dispersibility to fine particle (1 μm or less).

2 Feature

- ◆ Especially, it shows good dispersibility to inorganic powder, it prevents particulates from flocculation and reduces the viscosity of dispersion system.
- ◆ Almost product are 100% solid content, and don't contain impurities such as an alkaline metal and halogen.
- ◆ High solubility for various solvent.
- ◆ It shows good thermal decomposition under air and N₂ atmosphere.

Properties

Item	Appearance (25°C)	pH	Viscosity (mm ² /s, 25°C)	Solid content (%)
AKM-0531	Yellow or brown liquid	2~4	10,000	100
AFB-1521			6,000	
AAB-0851			16,000	
AWS-0851			32,000	
SC-0505K		6~8	2,000	
SC-1015F			2,000	
SC-0708A			5,000	
AKM-1511-60		2~4	450	60
HKM-50A	Yellow or brown liquid	6~8	250	50
HKM-150A			300

Additive amount

The additive amount of MALIALIM® and MALIALIM® SC series are normally from 0.5 to 5wt% (for powder weight). As the optimal additive amount strongly depends on particle size or surface area of powder, we recommend some test using different amount of the product to determine the optimal additive amount.

9 Cautions on handling

For more detail, Safety Data Sheet (SDS) is available.

10 Other information

This catalogue is made based on our best investigation, but about data and the evaluation result of mention, is not necessarily a thing to guarantee. Because there is unknown hazardousness to all chemical substances, scrupulous attention is necessary for the handling. On the responsibility of the user members, we hope that safe terms of use are set. In addition, please use safety measures suitable for a use when you do the special handling.

Please refer to our sales representative for other any questions.
